Features

- The first light of it's kind to offer critical intersection warning and side warning
- Design of light is based upon problem solving research - 30% of all emergency vehicle crashes are likely to occur at dangerous intersections
- No other light offers 180 degree output - specially designed reflector amplifies and throws the light at the perfect angle to increase visibility at intersections and offer side warning illumination
- Unique under mirror mount simplifies installation - labor saving light is much easier to install than traditional front mirror skull mounts - no mirrors to work behind or around
- Light can be surface mounted to any flat area on any type of vehicle - elevate your safety and visibility by mounting to the heachache rack or body of the vehicle wherever additional lighting is needed
- Features cruise mode for steady burn if desired

Single Light Kit, Standard Configuration

#ENT2B3(x)

Includes 1-light with in-line flasher, foam gasket, 3-wedges (0, 5 and 10 degrees) and screws for installation
